

Year 11 - Revision Questions - Contrasting levels of development

1. Levels of economic development vary between MEDCs and LEDCs.

State three ways in which these differences can be measured (3 lines, 3 marks).

2. The following approaches help to raise the standard of living in LEDCs:

- Aid.
- World Trade.
- Multinational companies.
- Appropriate Technology.

Describe how these approaches operate (17 lines, 9 marks).

3. What is meant by quality of life? (4 lines, 2 marks)

4. Why does physical geography often make some areas of a country difficult to develop? (6 lines, 3 marks)

5. Suggest reasons why some countries are wealthier than others (8 lines, 4 marks)

6. Describe how the level of development in LEDCs could be increased (10 lines, 6 marks)

7. What is meant by the term 'sustainable development'? (2 lines, 1 mark)

8. How could tourism help development? (4 lines, 2 marks)

9. What are the advantages and disadvantages of giving aid to LEDCs? (12 lines, 6 marks)

10. People refer to a world 'north-south divide'. What do they mean by this? (6 lines, 3 marks).
